ABSTRACTED-PUB-NO: RU 2032368C

BASIC-ABSTRACT:

The toothbrush comprises head (1) with brush tufts (2), neck (3) and handle (4). The handle has a counting device which includes and an oscillation registration unit (5) located between limiting front (6) and rear (7) thickened handle portions. A limiting plate (8) fits into slots (9) in handle (4) and has clearance at either side, plate (10) co-operates with a toothed wheel (11) on the registration unit (5). The registration unit has a spring-loaded

ratchet mechanism.

ADVANTAGE - Improves convenience by registering number of applied brushing strokes.
